## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 8-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 8 and 9, and by extension the claims which depend on them, cite "any one of the surface wave acoustic elements of claim 1". There is no proper antecedent basis for citation of a plurality of these elements in claim 1. Claim 1 only notes "a surface acoustic wave element", which is singular.

### ***Allowable Subject Matter***

Claims 1-7 are allowed.

Claims 8-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the prior art fails to show or fairly suggest a hard layer of  $(Al_{1-x}M_1x)_2O_3$  where x is equal to or between 0 and 5 in a sapphire-piezoelectric structure.

### ***Conclusion***

The prior art cited shows the state of the art.
